# WELCOME AND INTRODUCTION

Carolyn McCall  
Chief Executive

europe by  
**easyJet**

THIS IS OUR CAUSE

PASSION  N

We're passionate about connecting people by making travel easy and affordable.

PEOPLE 

We're on our customers' side and our people make the difference.

AMBITION  N

We have a big ambition, to be Europe's preferred short-haul airline, delivering market-leading returns.

# Today's themes

---

- Absolute focus on driving improvement in ROCE
- Delivery of consistent returns to shareholders
- Sustainable cost advantage
- Europe's leading short haul network
- Strong brand and consumer appeal
- Opportunity to grow revenues across both business and leisure segments
- Focused country management successfully implementing the strategy
- What gets measured gets done

# CAPITAL ALLOCATION

europa by  
**easyJet**

# INTRODUCTION

Chris Kennedy  
Chief Financial Officer

europe by  
**easyJet**

# Clear set of financial objectives and measures

	Objectives	Measures
Return Targets	<ul style="list-style-type: none"> <li>• Earn returns in excess of cost of capital through the cycle</li> <li>• Invest in growth opportunities where returns are attractive</li> </ul>	<ul style="list-style-type: none"> <li>• Improve PBT per seat to GBP5</li> <li>• Post tax ROCE of 12% through the cycle</li> </ul>
Capital Structure And Liquidity	<ul style="list-style-type: none"> <li>• Ensure robust capital structure</li> <li>• Return excess capital to shareholders</li> <li>• Maintain sufficient level of liquidity to manage through the cycle and industry shocks</li> </ul>	<ul style="list-style-type: none"> <li>• Maximum gearing of 50%</li> <li>• Cap of GBP 10m adjusted net debt per aircraft</li> <li>• Minimum GBP 4m cash per aircraft</li> </ul>
Dividend Policy	<ul style="list-style-type: none"> <li>• Targeting consistent and continuous dividend payout</li> </ul>	<ul style="list-style-type: none"> <li>• 5x cover, subject to meeting gearing and liquidity targets</li> <li>• Annual payment based on full year PAT; introduced for FY 2011, payable 2012</li> <li>• Consider returns over 5x cover to reduce excess capital</li> </ul>
Aircraft Ownership	<ul style="list-style-type: none"> <li>• Maintain flexibility around fleet deployment and size</li> </ul>	<ul style="list-style-type: none"> <li>• Target of 70% owned aircraft, 30% leased aircraft</li> </ul>
Hedging	<ul style="list-style-type: none"> <li>• Insulate short term operating performance against adverse movements in fuel price and exchange rates</li> </ul>	<ul style="list-style-type: none"> <li>• 65%-85% of the next 12 months' anticipated requirements</li> <li>• 45%-65% of the following 12 months' anticipated requirements</li> </ul>

# ROCE – aim to be transparent & to cover WACC

# Delivering top quartile performance

## LTM (Sep-11) Unadjusted ROCE

## LTM (Sep-11) Lease Adjusted ROCE<sup>4</sup>

1) LTM calculated to Oct-2011

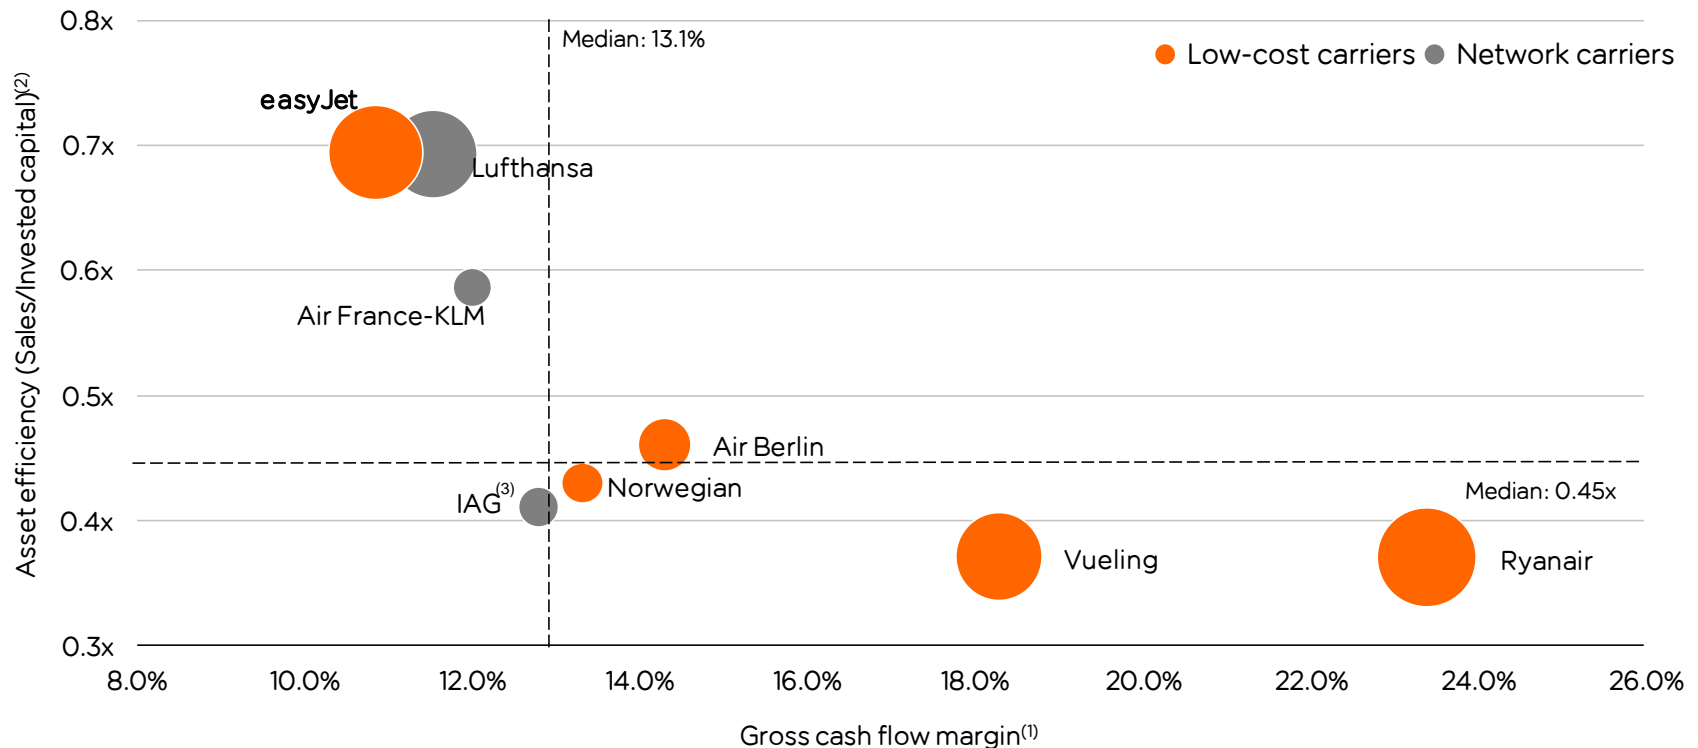

2) LTM calculated to Jun-2011

3) LTM calculated to Jul-2011

4) Leases capitalised using the Moody's (multiple) methodology and capitalisation factors (Airlines 8.0x; Land Transportation 5.0x; Freight & Logistics 6.0x). Capitalised leases calculated using LTM operating lease expense where available and latest FY operating lease expense where not

# Focus on margins is key to improving ROCE

## CFROI drivers – 2010

## High asset efficiency delivered through:

- Strong load factors
- Quick turnarounds
- High utilisation enabled by young fleet requiring less maintenance

Source: HOLT Value Search™ as of July 2011.

Note: Bubble size represents 2010. 2010 figures for Vueling and Norwegian are estimated based on broker consensus.

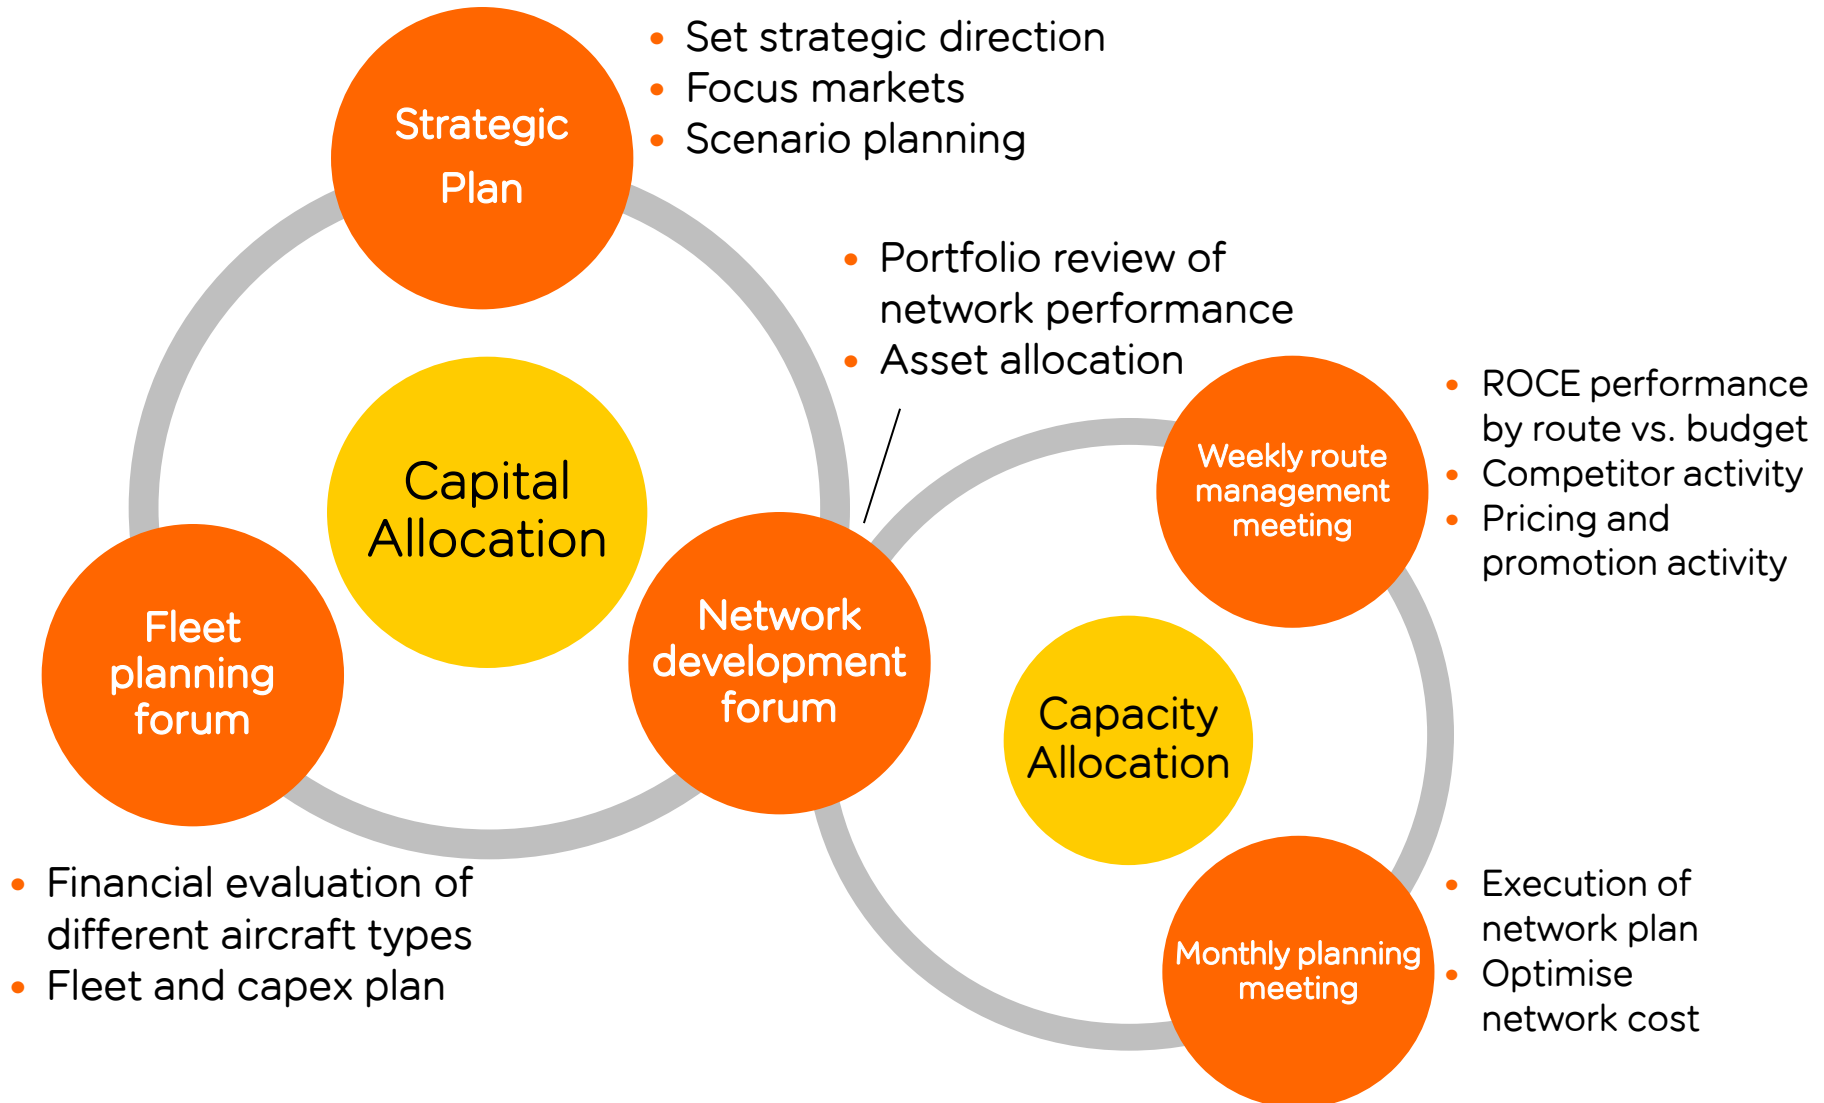

easyJet's CFROI displayed on the chart is estimated based on assumption of real debt rate of 7.0%. In HOLT default treatment, easyJet's 2010 CFROI is 4.6% and Asset efficiency is 0.61x.

(1) Gross cash flow is approximately equal to post-tax EBITDA plus rental expense and R&D.

(2) Invested capital defined as net working capital including cash, gross PP&E, capitalised operating leases and capitalised R&D.

(3) IAG based on an estimated pro-forma for the BA-Iberia merger in 2010.

# Capital allocation process

# High degree of flexibility in current fleet plan

## Fleet Count

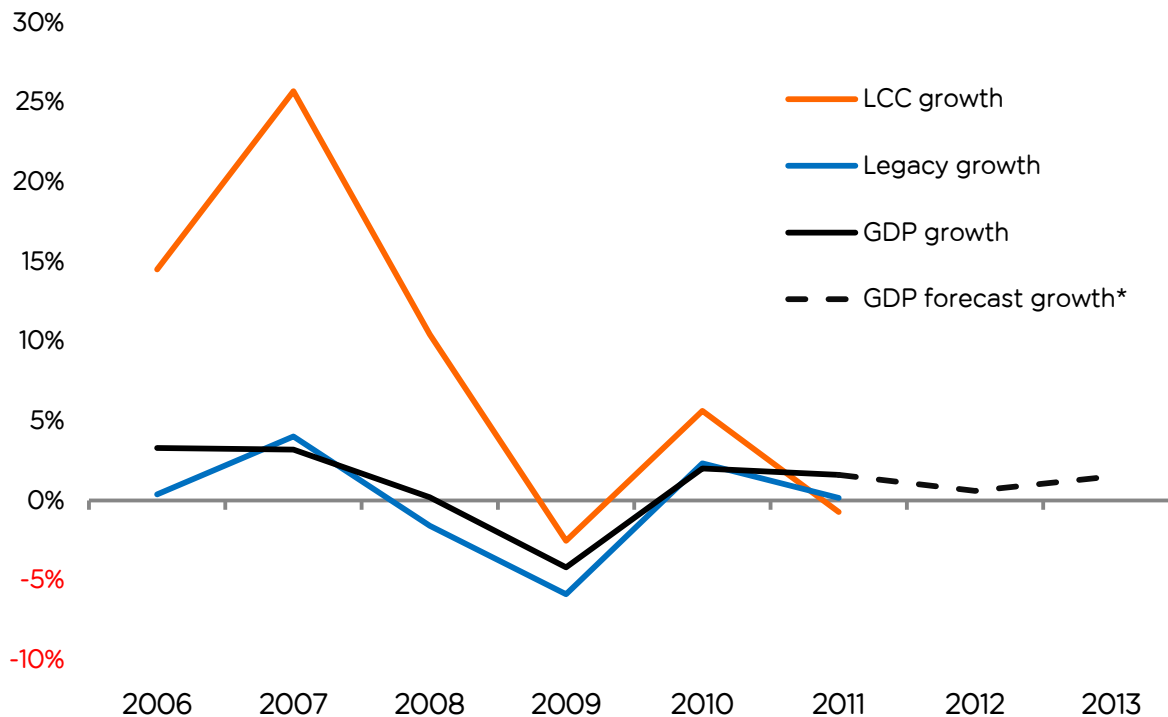

**Maximum fleet:** Lease extensions; options exercised

**Minimum fleet:** Early termination of leases; deferrals of existing orders

# Profitable opportunities remain in slowing market

Reduction in GDP growth, infrastructure constraints, markets maturing

EU27 + Swiss capacity growth & GDP growth

## Opportunity for easyJet

- Focus on markets where LCC penetration is low
- Retrenchment of weaker legacy carriers
- Further shrinking of tour operators in European short haul
- Infrastructure constraints will drive RPS growth

# Building a sustainable model

## easyJet five year plan 2011 to 2015

# NETWORK DEVELOPMENT AND OPTIMISATION

Alan McIntyre

Head of Network Development &  
Scheduling

europe by  
**easyJet**

# easyJet's network uniquely positioned

---

- Pan European network focused around primary markets
- Route portfolio and **network flexibility** ensures **broad appeal** across consumer types
- Absolute **focus on ROCE** and continual **performance management** of the network
- Strong platform gives easyJet significant potential for future profitable growth

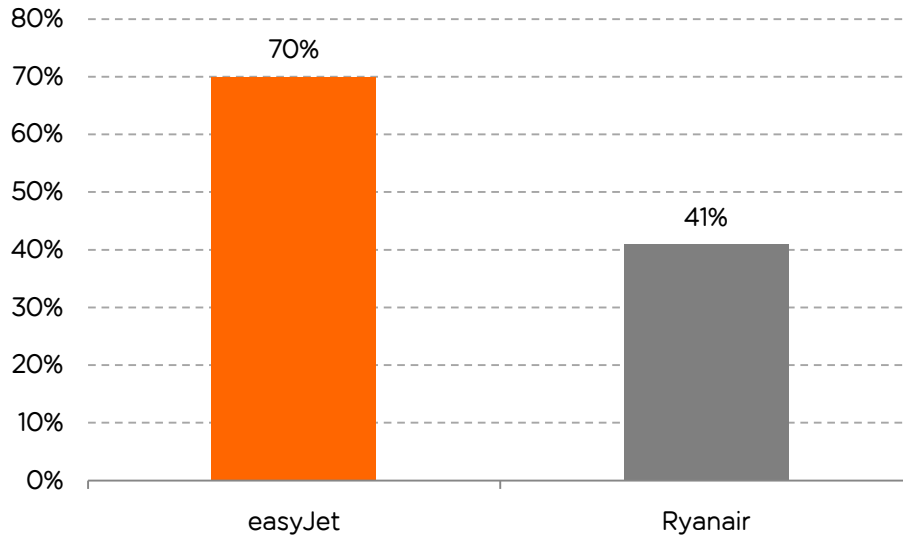

# Strengthening position in key European markets

- easyJet has strong and strengthening positions across key cities in Western Europe
- This enables us to gain a significant share of the revenue pools

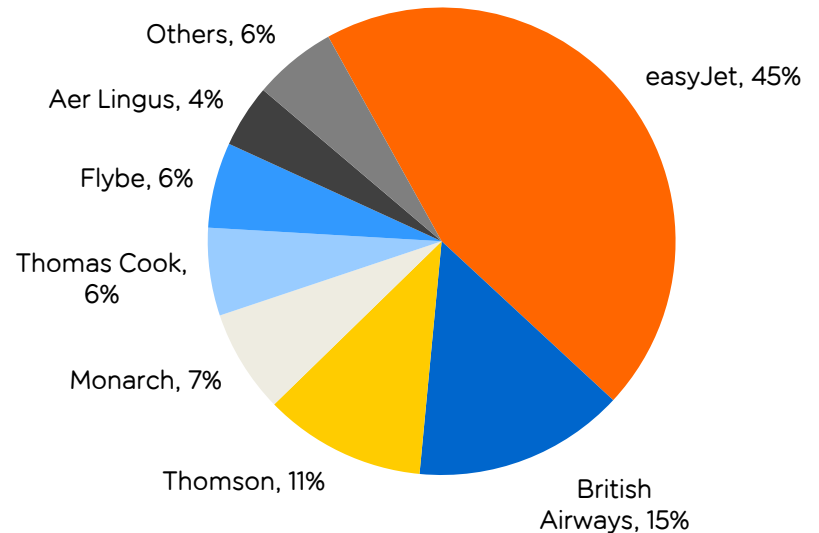

# Strong slot position at key airports

Percentage of capacity in Level 3 co-ordinated airports

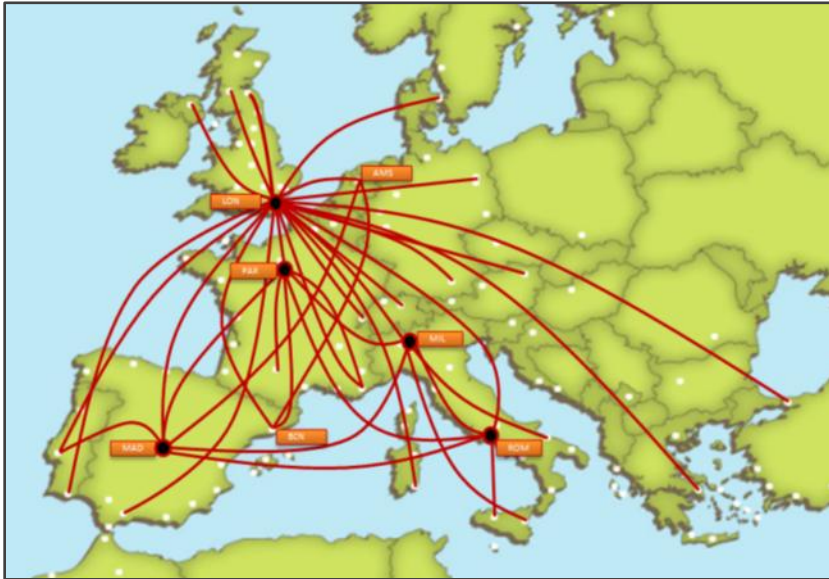

- easyJet has a strong position at more congested (and popular) airports which supports our position in these markets

Summer '12 Gatwick departures 0600-0855

- easyJet has strong position in Gatwick first wave – enables large portfolio of business friendly timings

# Leading position on top 100 European markets

- easyJet has a strong position across much of Europe on the top 100 markets
- From all the EU city pairs, the top 100 routes have a 24% capacity share
- easyJet's capacity share of the top 100 is 11.9%
- 38% of easyJet's overall capacity is on the top 100 routes

# Multiple base strategy enables network optimisation

---

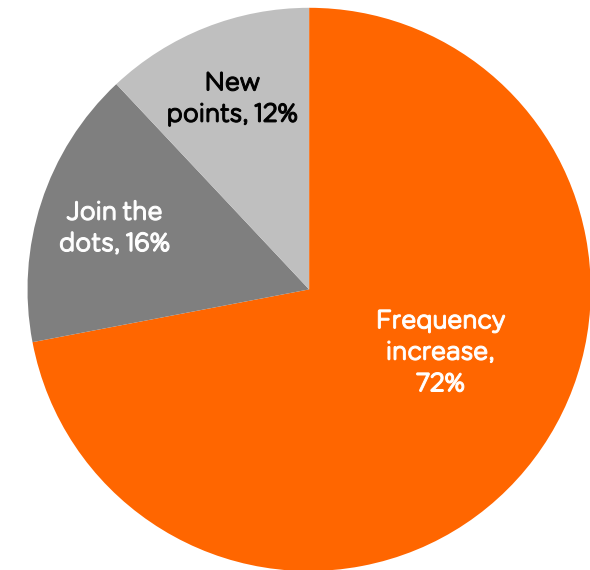

Example of network optimisation

# Focus on network quality and trading the network

% of year-round capacity replaced during peak summer

Allocation of new capacity FY 12

- We adjust frequency to suit demand – summer peak sees leisure capacity & routes significantly increased
- Focus of new capacity allocation in FY12 is to increase frequency to support business proposition

# Range of schedules to suit all customer types

- Schedule flights to optimise gains from business and leisure mix
- Use of triangle patterns and multiple bases to hit most appropriate times for different customer types
- e.g. Luton – Belfast - Malaga

07.55	LTN - BFS
09.40	BFS - AGP
14.25	AGP - LTN

07.00	BFS - LTN
08.40	LTN – AGP
13.05	AGP - BFS

# Absolute focus on ROCE

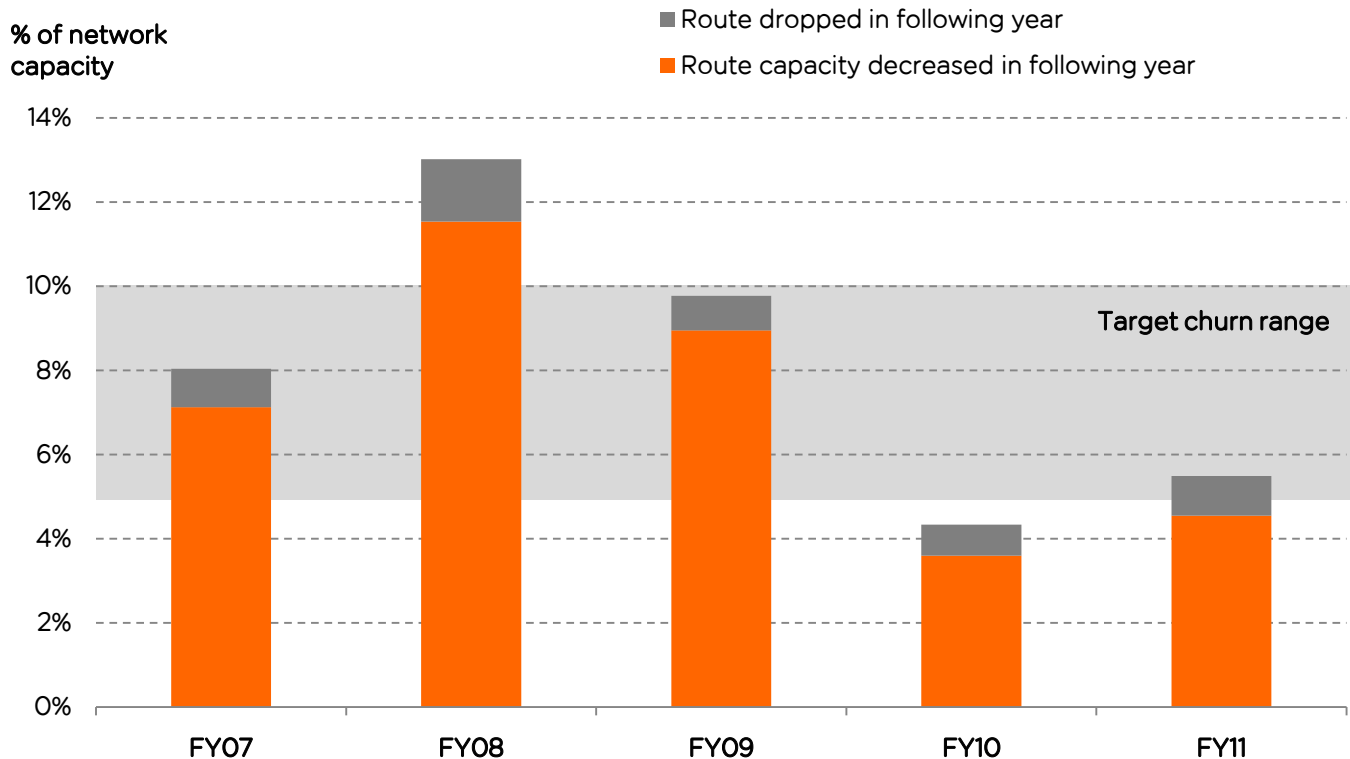

## FY11 route performance

- Routes below 12% must perform a role in the portfolio:
  - Support corporate strategy and provide product range
  - Competitive battles
  - Retain strategic slots or achieve volume deals at high performing airports
  - Complete high performing line of flying
- 6% of capacity allocated to summer-only routes
- Tactical winter reductions in line with demand without grounding aircraft

# We manage and churn the network portfolio

- Evaluate network performance against ROCE targets and churn
- Target churn (route drops / “thinning”) of 5%-10% of capacity
- Churn provides first option for incremental capacity & new routes

Source: easyJet management plan

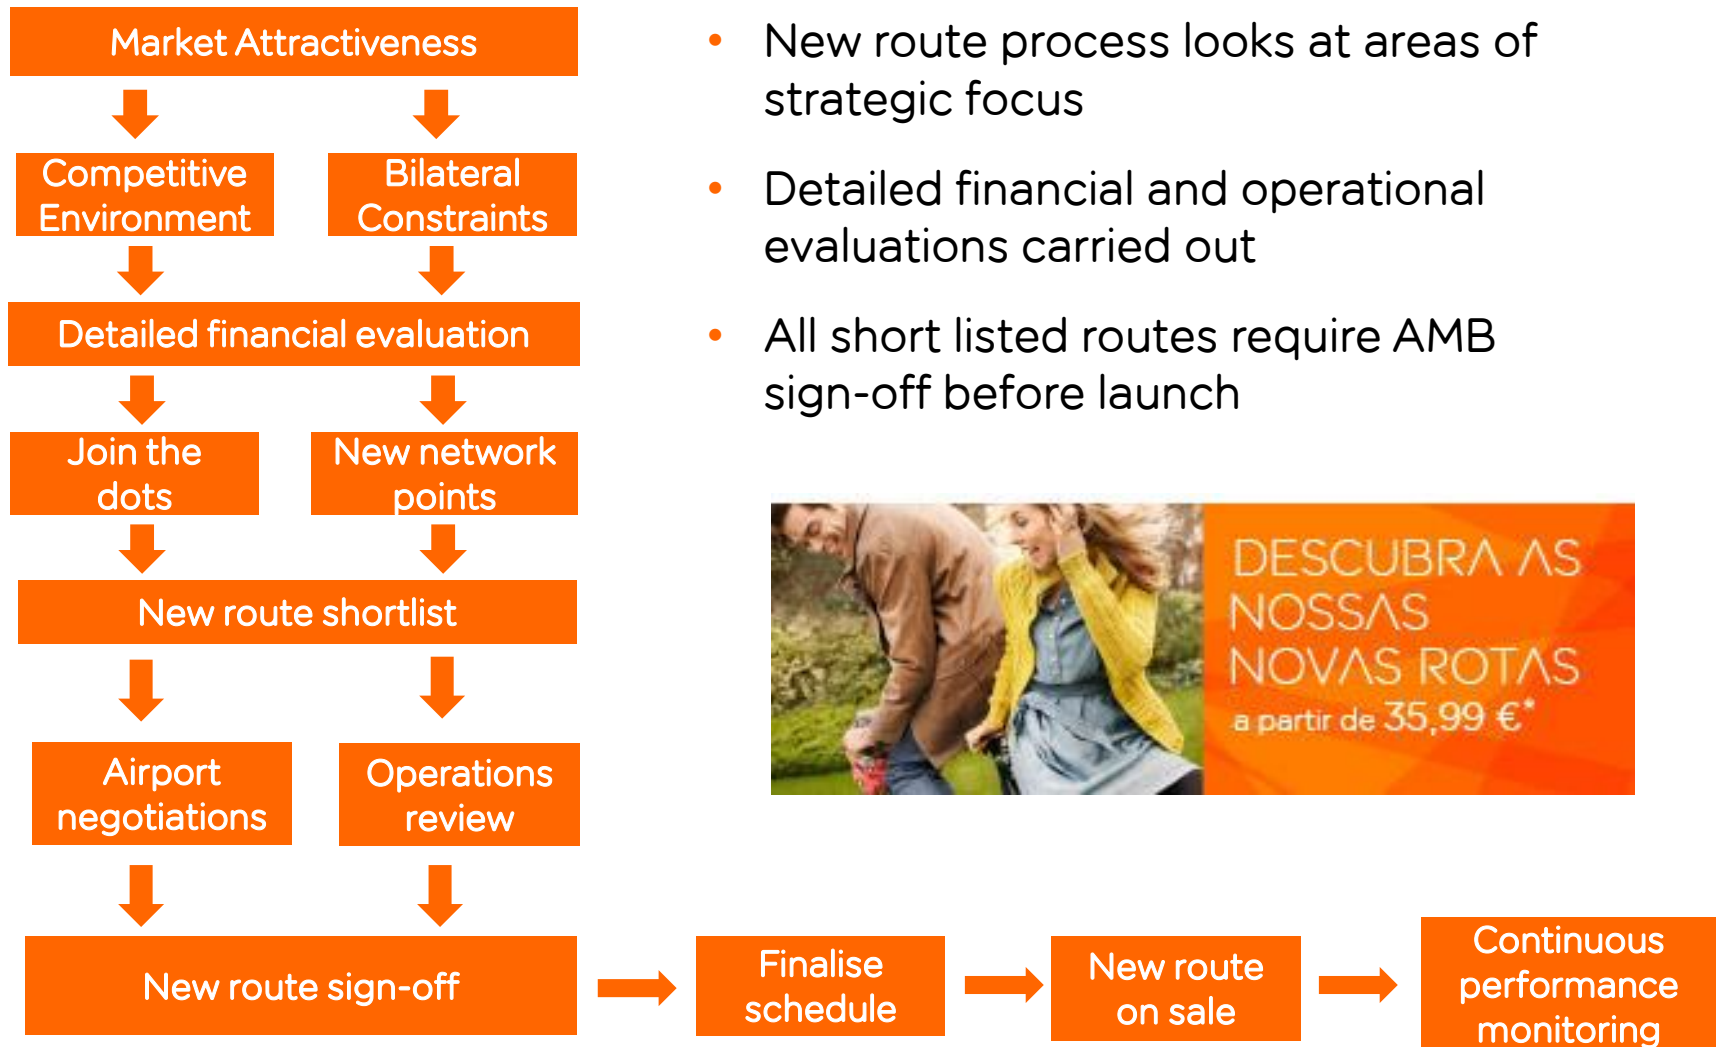

# Focus on ROCE has delivered changes in network

- Markets culled
  - e.g. Helsinki, Gothenburg, Madrid-Morocco
- Capacity reallocated
  - e.g. London-Milan, London-Barcelona, Paris-Milan
- Profitable opportunities
  - e.g. growth at Gatwick, Geneva, Basel
  - New bases e.g. Toulouse and Nice

\* Aller simple, taxes incluses. Prix valide au 15 janvier 2012, pour des vols entre le 15 janvier et le 27 octobre 2012, selon disponibilité, frais de gestion inclus. Des frais variables s'appliquent pour les bagages en soute. Certains moyens de paiement occasionnent des frais supplémentaires.

# New route selection process

# Continuous performance management of the network

---

## Weekly

- Trading meeting

## Monthly

- Country and route review meeting
- Review of performance against ROCE targets
- Review of best and worst performing routes with CFO

## Quarterly

- Network forum with CEO and CFO

## Seasonal

- Planning review meeting with CEO and CFO

# easyJet can still penetrate core markets further

- easyJet has c. 7.6% of European short haul market
- Growth of existing network planned to be in line with underlying industry growth

Source: OAG 12 months to Sep-11

# Potential for future profitable growth

- Growth of existing network in line with underlying industry growth of 1.5 x GDP
- Analysis indicates profitable new opportunities still exist, even at higher fuel prices
- New opportunities also exist at potential new bases in main easyJet territories
- 0-5% capacity growth plan does not take account of significant market entries into Germany, Scandinavia, Eastern Europe or other territories

Source: easyJet management plan

# easyJet's network uniquely positioned

---

- Pan European network focused around primary markets
- Route portfolio and **network flexibility** ensures **broad appeal** across consumer types
- Absolute **focus on ROCE** and continual **performance management** of the network
- Strong platform gives easyJet significant potential for future profitable growth

# FLEET STRATEGY

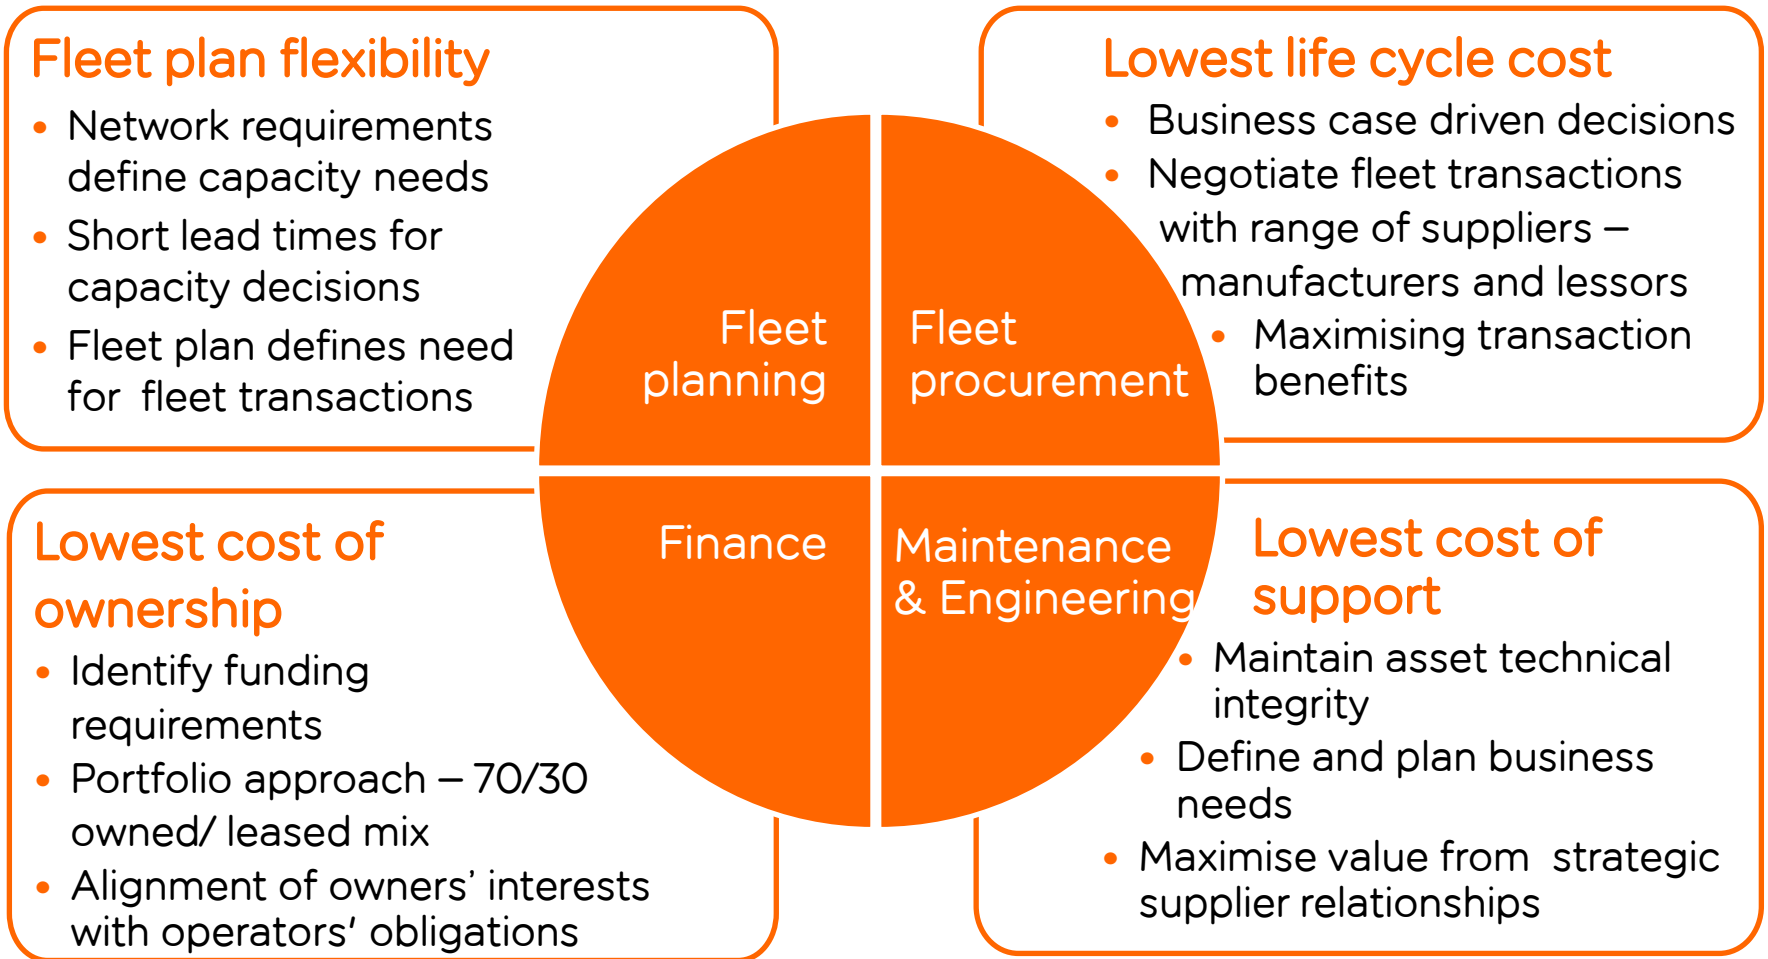

Chris Essex

Head of Central & Fleet Procurement

europe by  
**easyJet**

# Fleet strategy

Integrated approach required to deliver lowest fleet cost across the lifecycle

# Economic justification for new aircraft acquisition

Rationale	Justification	easyJet example
1. Economic obsolescence	<ul style="list-style-type: none"><li>• end of useful economic life</li><li>• new technology available e.g.<ul style="list-style-type: none"><li>• improved fuel efficiency</li></ul></li></ul>	<b>Aug-98:</b> order for 15 B737-700s
2. Deliver profitable high growth opportunity	<ul style="list-style-type: none"><li>• reduce unit costs e.g.<ul style="list-style-type: none"><li>• standardised equipment specification</li><li>• maintenance “honeymoon”</li></ul></li></ul>	<b>Oct-02:</b> order for 120 A320 family aircraft
3. New mission	<ul style="list-style-type: none"><li>• right sizing aircraft to market demand</li><li>• different operational mission</li></ul>	<b>Feb-09:</b> first delivery of easyJet specification A320

# A young fleet is an outcome of fleet evolution

No target fleet age: development of fleet has resulted in low average age currently c.4yrs

- We have experience in managing a major fleet transition

# Fleet status

Fleet and financing strategies have created flexibility and a mix of types, ages and ownership profile

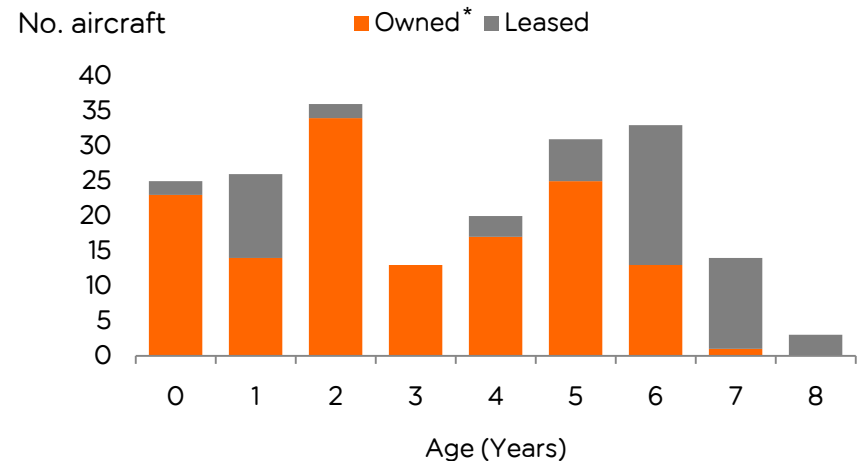

Fleet at 31-Dec-11	Owned*	Leased	Total
A319	111	56	167
A320	29	6	35
Total fleet	140	62	202

70 / 30 owned\* / leased mix target

## Ownership profile

## Age profile

# Airbus contract

---

- Airbus contract announced in 2002 for deliveries until 2014\*
- Provides strategic framework for A320 family pricing for up to 315 aircraft of which 242 have been ordered to date in five transactions
- Transaction in January 2011 for 15 aircraft
- 207 aircraft delivered by end 2011
- 35 further deliveries by September 2014
- 42 options + 31 purchase rights remaining
- Fleet type flexibility (A319/A320/A321)
- Contract provides substantial discounts to list price and easyJet continues to drive value

# New technology

	Airframe	First delivery / First firm airline order	Fuel saving*
	Airbus A320neo family	2015 / Virgin America	15%
	Boeing 737 MAX family	2017 / Southwest	16%
	Bombardier CSeries	2013 / Lufthansa (for Swiss)	20%

	Engine	Available on aircraft family
	P&W PurePower PW1000G	<ul style="list-style-type: none"> <li>• Airbus A320neo</li> <li>• Bombardier CSeries</li> </ul>
	CFM LEAP	<ul style="list-style-type: none"> <li>• Airbus A320neo</li> <li>• Boeing 737 MAX</li> </ul>

# Future fleet evaluation

Sep'11 - Jan'12	Feb'12 - Mar'12	Apr'12 – Jun'12	Q4 FY12
Ability to operate competitively on easyJet's network	Relative economics of new types compared to existing fleet	Phasing / speed of transition and flexibility	Enhances premium of ROCE over WACC?

# Summary

---

- Fleet strategy based on key principles
- Inherent flexibility in fleet plan
- Fleet changes driven by business cases
- Low average age is an outcome of fleet strategy
- Airbus deal has provided competitive advantage
- Future fleet structure under evaluation

CUSTOMER

europe by  
**easyJet**

# MARKETING

Peter Duffy  
Marketing Director

europe by  
**easyJet**

# Objectives

---

- Hit yield and volume targets
- Improve brand perception
- Increase marketing spend effectiveness
  - Marketing cost per seat from £0.84 (2011) to £0.81 (2012)

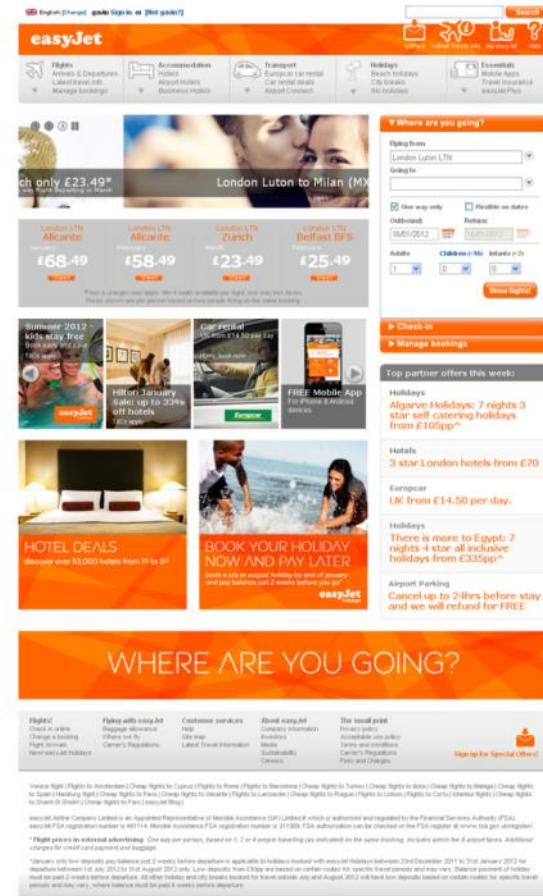

# Web facts

---

- easyJet is a leading search term for travel across Europe
- In 2011 easyJet.com had 364 million visits (+6.5% YoY) and 213 million unique visitors (+8.5% YoY)
- On the final day of the 2012 January sale, easyJet.com had 2.2 million visits
- easyJet supports 14 languages
- In 6 months (Jun 2011 – Dec 2011) the 6 pages of the easyJet booking funnel were viewed over 259 million times (excluding the homepages)
- 46% of traffic to easyJet.com is direct – proving the strength of the brand. In the UK it's 54%
- In Dec 2011 mobile visits to easyJet.com accounted for 6.5% of all traffic. In Mar 2011 it was 3.2%

# Personalised web environment

- Defaults to 'flying' airport
- Remembers last search
- Links to email for personalised experience
- Supports third party dynamic content
- Switches to 'non-seat' post purchase
- Deep link from Google search
- Raft of usability improvements to improve conversion rates

# Personalised email environment

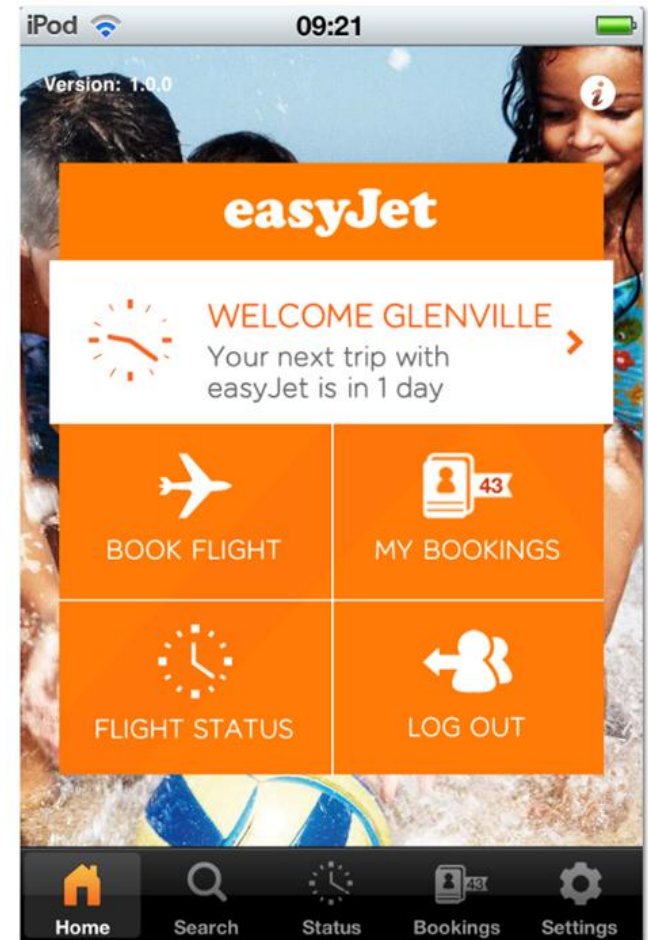

## Repeat purchase by market

UK	FR	IT	G	ES	SW
38%	32%	38%	30%	30%	42%

- Increase sales from internal media
- Switch from campaign to trigger/journey based approach
  - Abandoned basket
  - Ancillary upsell
  - Flight minus days
  - Research and resale

# Personalised mobile environment

- Sales and servicing platform
- Key source of customer contact during journey
- Disruption management including change flight/refund
- Mobile boarding
- Upsell capability core

# Summary

---

- Focus on digital efficiency
- Maximise value of internal media
- Targeted use of third party media
- Overall increased Marketing spend effectiveness resulting in reducing YOY marketing cost per seat

# CUSTOMER AND REVENUE: FOCUS ON LEISURE

Cath Lynn

Customer & Revenue Director

europe by  
**easyJet**

# Customer and revenue team

## Making travel easy and affordable

Customer

- **Customer Experience** - putting the customer at the heart of everything we do, whilst remaining low cost
- **Customer Operations** - driving service efficiency in our contact centre operations

Product proposition

- **Network and Schedule Development** – optimising the use of our aircraft assets: where you want to fly, when you want to fly
- **Business Passenger** - building the business passenger proposition and making it easy to book
- **Leisure Passenger** - delivering a winning leisure proposition

Revenue

- **Yield development and revenue management** – leading the industry in monetising every seat
  - seats, bags, speedy boarding
- **Non-seat** – increasing our share of wallet
  - In-flight , accommodation, cars, insurance, easyJet plus

Europe's preferred airline, delivering market leading returns

# Building on our strength in Leisure

- Leisure is the foundation of our profitability
- Carried approximately 45million leisure passengers in FY11 ~ c. 80% of our business
- Recognised for offering a competitive leisure proposition
- We are winning share from charter carriers
- We know and understand our leisure business and customer
- By understanding our customers we are can maximise yields

# Who are our Leisure customers?

Visiting friends and family, regular links across Europe

Our Families travelling with children of all ages, at peak times

Our retired /elderly customers have the luxury of time and desire to travel

Our Groups normally travelling for occasions, for example hen & stag, golf or events

Our Student/backpackers are adventurous, travel light and take multiple trips annually

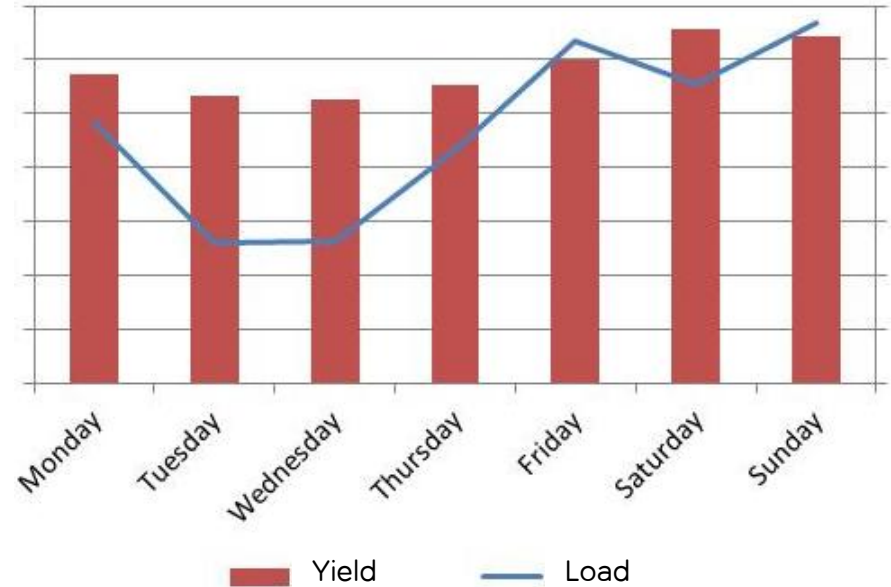

Our second home owners travel at least 2-3 times per year to their overseas property

City Breaks or winter sun break in addition to main holiday  
Ski as a second holiday once a year

# Leisure drives profitability

- Price sensitive leisure passengers travel off peak enabling us to fully utilise our aircraft assets
- Retired market is growing
- Higher yields and loads are obtained at the weekend where the demand for Leisure travel is high
- Leisure demand complements our drive on business

# Leisure delivers premium yielding passengers

- Premiums from leisure passengers at peak are high
  - Weekend breaks
  - School Holidays
  - Bank/religious holidays
  - Ski
- Families travelling on beach routes at peak holiday periods

# The easyJet leisure experience - making it easy

- Self help tools online helping prepare for travel and online check-in and manage your booking facility
- Trusted reliability and on time performance
- Welcoming and friendly in flight experience CSAT +90%
- New communication channels with real time information
  - online flight checker
  - easyJet APP
- Building on our network advantage
  - Customer lead network design
  - Growing mix of pan European leisure destinations
  - Convenient airports and timings

# BUSINESS TRAVEL

Andy Hodges

Director of Sales, Distribution and  
Business

europa by  
**easyJet**

# Our Goal

- Realise “fair share” of business travel market
- Translates to £100m incremental margin pa
- Delivery requires a behaviour change within mid to large corporates – so will take time
- But a value message has resonance in today’s market

KPI	FY11	FY15
Business passenger penetration as % of easyJet seats sold	18%	between 20% & 24%
RPS uplift from Business passengers	20%	between 25% & 30%
Incremental margin	£0m	£100m

# How we get there

- Optimise our product & pricing
- Drive awareness & demand through targeted advertising
- Adapt our distribution channels to match our customers' needs
- Create a small but effective sales force to:
  - build partnerships with travel management companies
  - sustain relationships with mid-large corporates

# A winning formula

#	Business Traveller Preference	Competitive advantage?
1	Network	✓
2	Punctuality	✓

business by **easyJet**

# Push: stronger relationship with corporates

- Become short haul carrier of choice
- Multiple stakeholders:
  - Policy makers
  - Buyers
  - Bookers
  - Travellers
- Tailored messages through different media
- Clear targeting by market
- Range of products & channels to suit different needs

# Driving the potential of indirect channels

- Indirect channels drive margin for eJ (volume for legacies)
- Costs recovered through POS
- eJ.com always cheapest
- Better terms with the GDSs:
  - greater commercial freedom
  - improved technical performance

## Business travellers

Channel mix share (Revenues)

## Leisure travellers

Channel mix share (Revenues)

Source: PhocusWright

# Pull: Partnerships with TMCs

- Targeted incentives that drive incremental yield, not volume
- Standard approach, tailored by market
- Supplemented with limited number of pan-European deals
- Managed by local sales teams
- Supplements direct corporate partnerships
- Simplified back-office payment

1 volo in qualsiasi giorno negli aeroporti di Milano Malpensa e Milano Linate verso Parigi Charles De Gaulle, Parigi Orly e Roma Fiumicino.  
1 voli per Parigi carboni se da Malpensa (3 al giorno) che da Linate (2 al giorno). V'invia easyJet.com per ulteriori dettagli.

# Summary

- Leverage network strength
- Enhance the product
- Deliver through the right channels
- Partner with corporates, TMCs & distributors – on our terms
- Target advertising & promotion
- Don't break the model..... retain great value

**Business sense, not business class**

# EASYJET LEAN: MAINTAINING OUR COST ADVANTAGE

Chris Kennedy  
Chief Financial Officer

europe by  
**easyJet**

# easyJet's low cost base a significant advantage

easyJet lean aims to protect and enhance this advantage

Key areas of focus:

- airports and ground handling
- crew

# easyJet lean targets supported by benchmarking

# Inherent cost advantage in easyJet's model

## Legacy A319

124 seats  
(source: Airbus)

70.1% load factor  
(source: AEA Europe figure Jan - Dec 2010)

84 passengers

Fewer passengers  
with higher costs

## easyJet A319

156 seats

87% load factor  
(2010)

136 passengers

56% more passengers  
against legacy A319

## easyJet A320

180 seats

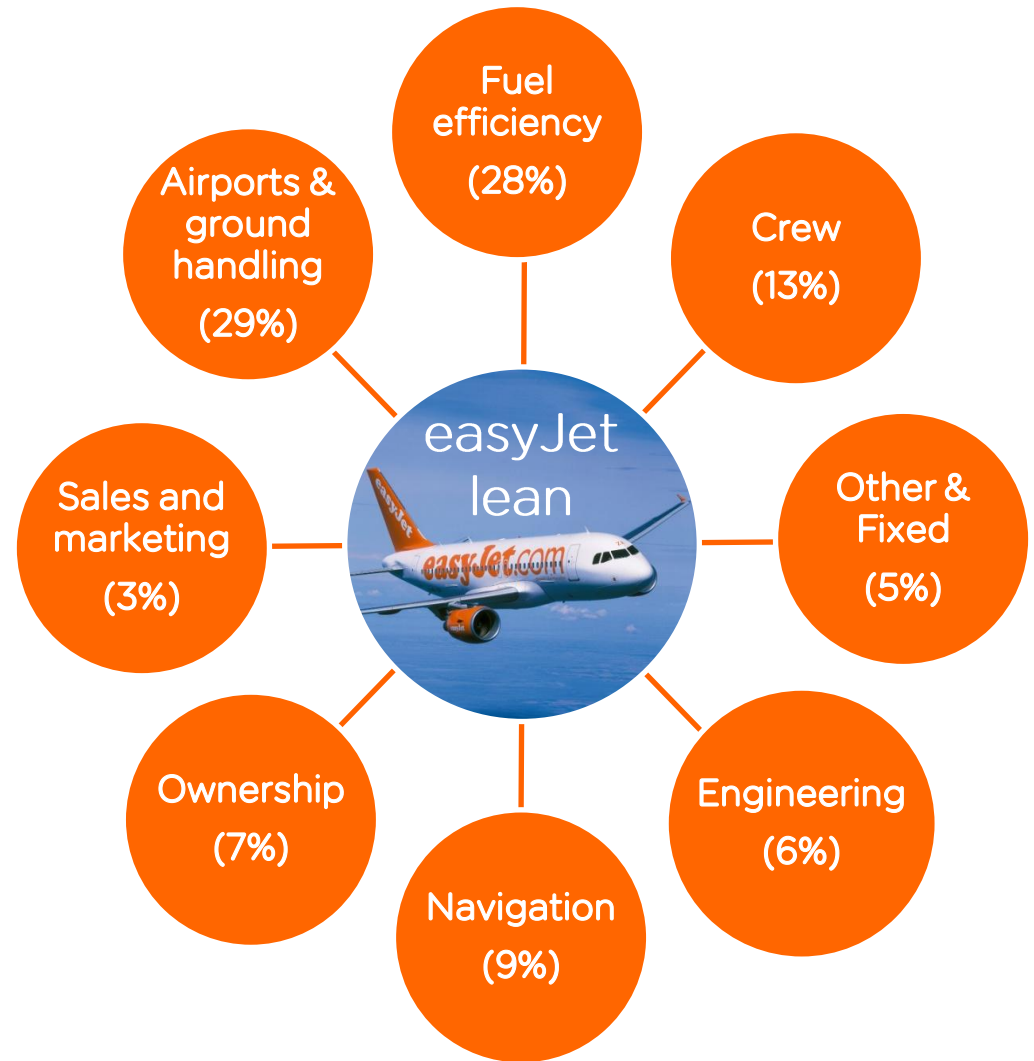

87% load factor  
(2010)

156 passengers

15% more passengers  
against easyJet A319

# easyJet lean – lowest cost for our network

- Programme with governance and milestones
- Aimed at both long term and short term
- Embedding a lean culture and continuous improvement
- Covers whole cost base
- Sustainable benefits, not one-off benefits

# Focus areas

---

- Airports and Ground Handling
  - Driving down margins
  - Working to develop a more appropriate and consumer friendly regulatory environment
  - Encouraging efficient airport capital expenditure
  - Encouraging pay per use charging structures
- Crew: increasing flexibility and robust management of the establishment
- Fleet: increasing mix of A320s in fleet to deliver reduced operating and capital cost per seat
- Fuel: FY11 £917m cost - small % savings can generate large cost reduction

# easyJet lean governance and project plans

- Key easyJet lean statistics
- Programme Management Office to provide clear support and accountability
- Bimonthly AMB Programme Steering Group
- Eight main workstream programmes – bimonthly project boards
- Twenty five sub stream programmes
- Weekly and monthly financial performance tracking

## Example of easyJet lean project tracking report

Project	PMO assessment of status	Agreed actions	Timeline status (weeks delayed)	Dec benefits status (£M variance)	YTD benefits status (£M variance)
P13—Engineering cost base to eJ Lean	Contract re-negotiation projects being run as BaU Escalated e-checks implemented Additional opportunity to extend to xxohrs being explored Budget revised and ~£x M gap to FY12 budget identified Team working on additional initiatives	Present detailed block maintenance business		x	+x.x

# On target to deliver £90m of savings in FY12

## easyJet lean initiatives

- Minimising impact of controllable inflation
- Delivered £19m at the end of Q1
- 21% of FY12 target with plans fully developed to deliver full year

### Engineering and Maintenance

FY12

Shop visit timing	In progress
Line maintenance contracts	Delivered
LLP pre-purchase	Delivered
Wheels & Brakes contract	Delivered

### Crew

FY12 pay deal	In progress
UK + Europe pilots	In progress
Establishment	In progress

### Fuel

Differential contracts	Delivered
Discretionary fuel	In progress
Delayed engine starts	Delivered
Weight reduction	Delivered

### Airports & Ground Handling

Leveraging growth at commercial airports	In progress
Regulatory	In progress
GH margins	In progress
Tourism funding	In progress
Contract compliance	In progress

### Other / Fixed

In progress

# Summary

---

- easyJet lean is fully embedded
- Programme plans are fully formed
- Clear targets and milestones have been set across the business
- FY12 is already delivering well and is set to meet plan of £90m

# DELIVERING COST ADVANTAGE THROUGH AN EFFICIENT OPERATION

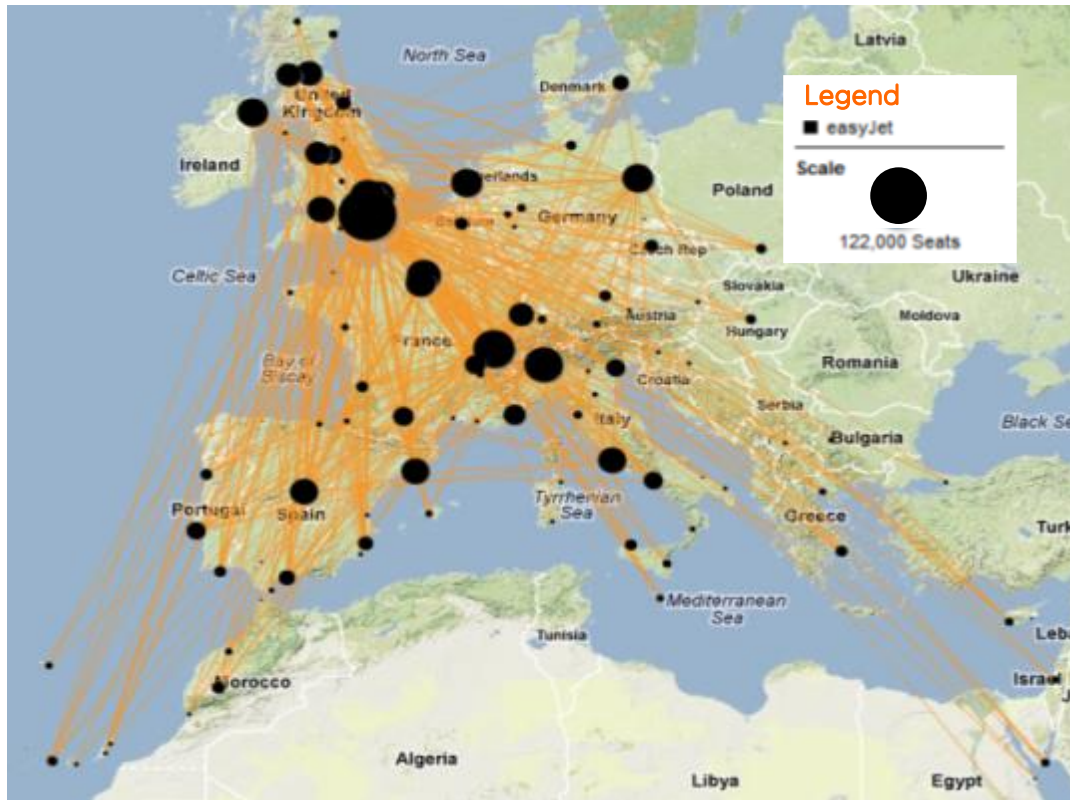

Warwick Brady  
Chief Operations Officer

europe by  
**easyJet**

# Operations at 49 of top 100 European airports

## Turning Europe Orange

Our operation is large-scale and Pan-European

Source: Seabury Group

## Flight Operations

- 1,900 Pilots

## Cabin Services

- 4,300 Cabin Crew

## Ground Operations

- 611 routes across 130 airports in 30 countries

## Engineering & Maintenance

- 204 aircraft
- 5 maintenance bases,
- 22 line maintenance bases

## Operations Control

- 23 aircraft/crew bases,
- c. 1,200 sectors/day

# Efficient operation drives superior ROCE

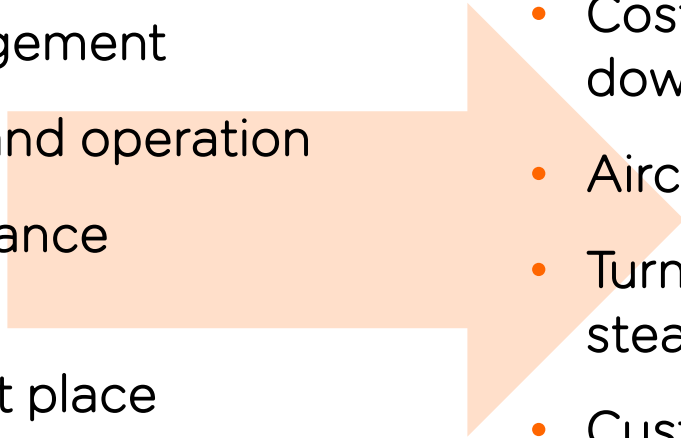

---

## Areas of focus

- Safety is our number one priority
- On time performance
- Smart cost management
- Simple schedule and operation
- Rigorous performance management
- Right people, right place
- Customer friendly
- Engaged team

## Outcome: FY11 Operations KPIs

- On time performance up 13ppts
- Cost per seat (excl. fuel) down 1.6%
- Aircraft utilisation exemplary
- Turn compliance improving steadily
- Customer satisfaction up 6ppts

# What gets measured gets done

- 5 daily operations calls, (E&M, OCC, Ground Ops, IT, Executive) covering operational issues and successes
- Daily, weekly and monthly Operations reports
- Identifying trends, issues and problematic areas / bases
- Total clarity around financial objectives and KPIs

## Rolling 12 month average

% Flights on time

23ppts  
improvement in  
YoY rolling  
12 month  
OTP scores

# OTP integral to driving customer satisfaction

Improvement in OTP has helped push up customer satisfaction

- Brand reputation takes longer to recover

# Ground handling costs reducing

- Airports & Ground handling is 44% of cost base (excl. fuel costs)
- Costs down despite inflation (-0.5 FY09 to 5.2% FY11)
- Improved efficiency
- New world contract
- Focus on short shipped bags
- Increased internet check-in
- Allocated seating trial
- Simple baggage reconciliation systems
- Forced air de-icing & brushing
- Ensure the customer stays front of mind, every flight, every day

## Turn time success

# Driving ground handling efficiencies

- Strategy review
- Internal cost benchmarking
  - Identify opportunities
  - Support negotiations
  - Ensure robust plans developed for key negotiations
- Cost saving projects
  - Project Turnaround – define the ideal turn
  - Set up value engineering processes to drive out cost
  - 100% straight to security

## Ground handling cost/turn

## FY11 ground handling cost breakdown

# Utilising technology to drive improvements

- Improve uptime and resilience of all systems
- Connecting crew
- Capturing and exploiting our operational data
- Drive down our fuel burn
- Safety net
- Analysis and optimisation technology
- Electronic flight bags (paperless, weight reduction)

Engineering & Maintenance cost per block hour

# Sensible approach to crew costs

---

- Crew costs are 20% of cost base (excl. fuel)
- Recruiting a mix of experience levels in pilot community
- Improved flexibility
- Improved management of pay negotiations across business
- Competitive on cost
- Aim is to offer lifestyle choices - select between pay, time off or part time
- Reviewing regionalised pilot and cabin crew training

# Operations control centre

## Minimising risk, cost and impact of disruption

- Nerve centre of our day-to-day operations – drives our OTP
- Optimisation tools for network disruption management
- New Ops Control Centre
- Cost efficiencies in network operating costs and passenger disruption management
- Better platforms to communicate with the passengers
- Enhance communication with crew
- Disruption management has reduced our costs despite EU261

## Disruption cost / flight

# Range of fuel management initiatives

---

- One engine taxiing
- Delayed engine start
- Engine washing
- Fuel burn information shared with flight crew
- Review contingency fuel, taxi times
- Implementation of fuel burn analysis tools
- Investigating lightweight seats and trolleys
- Potable water policy
- Pilot engagement
- Continuous improvement together with manufacturers
- Cost management evident from flat cost rate FY09-11

# Summary

---

- Strong improvement in operational performance over last 12 months
- Continued ability to deliver low cost & efficient operation in highly congested, high utilisation, slot constrained airports
- Pipeline of initiatives to deliver future ROCE
- Clear measurement framework in place to track performance

# CASE STUDY: ENGINEERING & MAINTENANCE COST PERFORMANCE

Ian Davies

Head of Engineering & Maintenance

europe by  
**easyJet**

# Engineering & Maintenance “Did we deliver?”

---

The promise in 2008 was...

- Highest standards of safety through SMS System
- High reliability of A319, A320 fleet & Boeing sub-fleet
- Continued focus on maintenance cost management
- Contract renegotiation using leveraged position
- In-source Fleet Technical Management to provide in-house maintenance support functions:
  - optimised maintenance cost
  - direct control over contract performance and SLAs
  - direct management of airworthiness certification
- £10m p.a. cost savings by FY11 (equates to £0.19 per seat)

Lowest cost of maintenance without compromising safety or operational performance

# Maintaining reliability and reducing cost

£0.31 per seat reduction from FY08 to FY11

# Cost Distribution and Initiatives

## Contract re-negotiation in progress or completed

- Reserves
- Components
- Line maintenance
- Consumables
- Logistics

## Remaining cost base targeted for re-negotiation

- Wheels Brakes & Tyres
- Modifications
- Interiors
- Exteriors
- Line maintenance tenders

## Key Initiatives have delivered annual savings of £26.5m

- SRT deal
- Tech services insourcing
- MOC insourcing
- Base maintenance

# Did we deliver? Yes we did!

---

- Improved operational performance at lower cost
- Exceeded original CPS target by 63%
- Full control of maintenance services and activities
- In-sourced projects delivered on budget

## Going forward...

- Engineering & Maintenance championing easyJet lean
- Training other areas in how to achieve effective change and cost savings
- One team dedicated to be the best

# The future

---

- Operational restriction resolution with Airbus & vendors
- 2012 cost reductions remaining stations line maintenance
- Gatwick Maintenance Base Option in house
- Examine options for 2015 with SRT contract
- Spares and logistic control in-source
- No increase in overhead up to 250 aircraft to drive lower CPS
- Lean methodology at the core of all processes

The future is Lean and Kaizen in everything we do!

# BRINGING IT ALL TOGETHER

Case studies:  
Switzerland and France

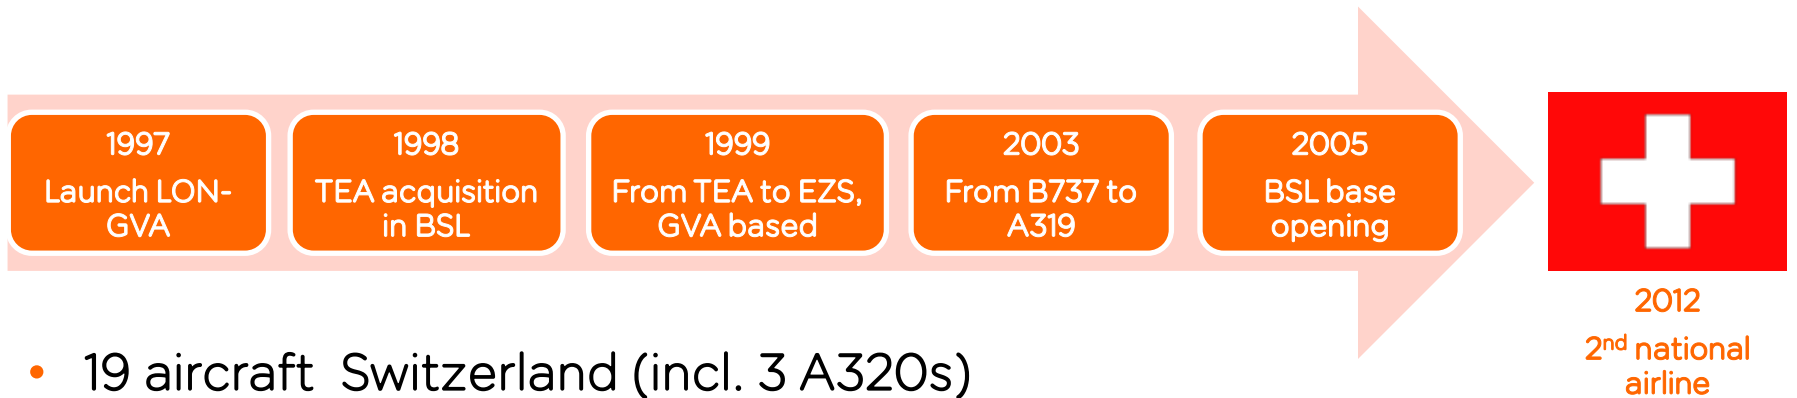

europa by  
**easyJet**

# HOW WE SECURED A WINNING POSITION IN THE SWISS MARKET

Thomas Haagensen,  
Country Director Switzerland & Germany

europe by  
**easyJet**

# 15 years in Switzerland

- 19 aircraft Switzerland (incl. 3 A320s)
- Number 1 in Geneva (35.8%) and Basel (47.6%)
- 7.8M passengers in 2011
- Positive customer perception vs. flag carriers
- One of our most profitable markets
- Strong in-flight through tailored ranges

55 routes from Geneva, 36 from Basel, 3 from Zurich

# Swiss route network

GVA

BSL

# How we have achieved our winning position

## Close to 8m passengers annually

Sales development in Switzerland

## Focus on profitable growth

Indexed contribution and capacity growth

- Costs – lowest unit costs in market
- Network – product segmentation ensures profitably
- Brand – high awareness, strong performance

# Cost - LCC approach that delivers a quality product

- Ground handling
  - Initial self handling broke cartel
- Crewing
  - High flexibility
- Lower aircraft costs
  - Single type of aircraft concept
  - A320s mix enables short and mid-haul flights
  - High utilisation of each aircraft
- Operational efficiency
  - Short turn-around times
  - On time performance (85% in Q1)

50 MILLION  
PASSENGERS IN SWITZERLAND

Lowest costs in the Swiss market puts pressure on competition

# Network - Successful regionalised approach

- Network mirrors the mobile, high earning, multinational customer base
  - French and German “domestics”
  - VFR routes to Italy, Kosovo, Portugal & Spain
  - Summer and Winter-sun leisure flights to counter seasonality
  - Business routes with high frequencies
- Can respond to market gaps and defend against 4 “domestic” competitors
- Utilising outbound as well as inbound potential through EU-network
- Swiss AOC enables network expansion beyond Europe

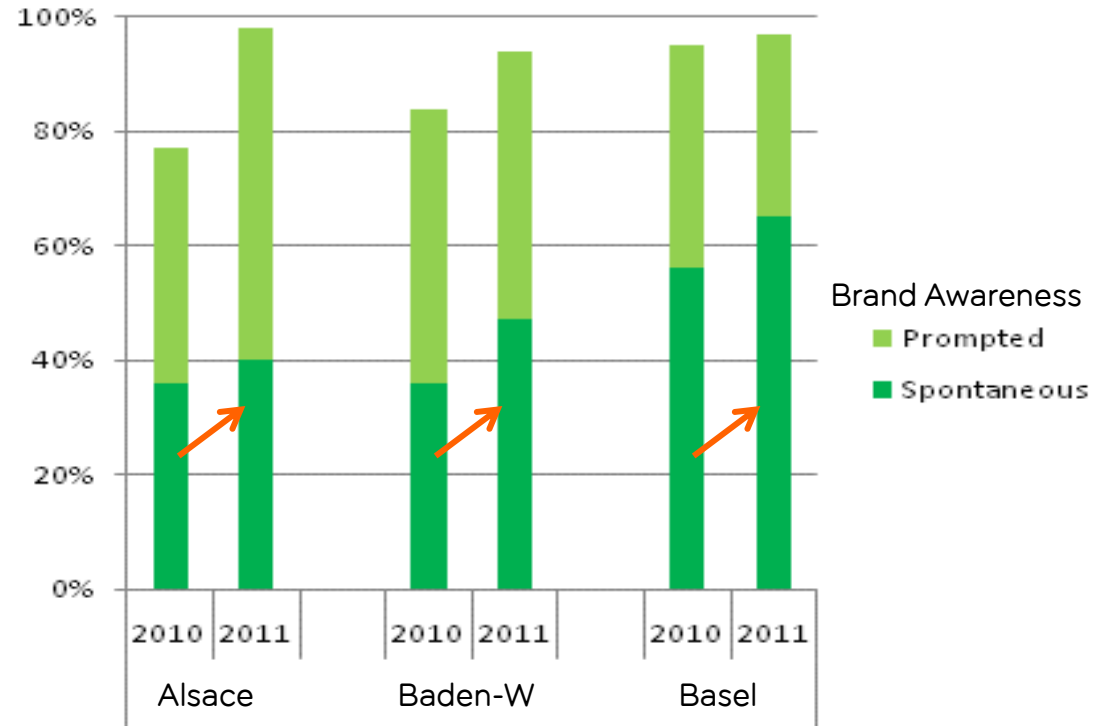

4 domestic competitors

# Brand – strong recognition in Swiss market

## Building on strong awareness and consideration in Switzerland

- Overall strong top of mind brand awareness (close to 100% including prompted)
- Fine tuning media mix to ensure continuous improvement in all regions
- Sales manager and business proposition

# Brand - Continuing to grow and innovate

1997

Today

# FRANCE'S LOW COST CARRIER

Francois Bacchetta, France Country Director  
Steve Azevedo Taverney, Regional General  
Manager – Operations France

europe by  
**easyJet**

# France: Land of opportunity!

---

## Strong foundations

- Lowest cost operator at airports we operate from
- Low fare penetration in France is half of the EU average
- Average easyJet fare is 50% lower than Air France
- 2<sup>nd</sup> airline considered after Air France, before any other airline (source Gfk survey)
- easyJet is #2, and only alternative major player across the country, providing the only domestic network alternative (22 routes)
- 21% of our customers were business travellers in 2011
- Crew on local T&Cs - 800 employees in France
- Engagement – actively engage with government & regulators: our alternative views are welcome

# easyJet – “The alternative to Air France”

easyJet in France	2006	Now
Routes	53	157
Market share	5%	12%
Business travel	17%	21%
Routes with min. 2 dailies	6	17

- Steady profitable growth: traffic doubled since 2006
- Even growth across the country: number two in eight out of ten major French airports
- 12% market share overall, far ahead of followers

# easyJet: only significant competitor to Air France

## Major French markets

# We are number 2 in 8 out of 10 major French airports

# In five years we have doubled customers

Since 2006 we have doubled conversion (from 10 to 20%) while maintaining awareness

Since 2006 we doubled conversion (from 10 to 20%) while maintaining awareness

%

# WINNING IN PARIS

Steve Azevedo Taverney

Regional General Manager – Operations  
France

europa by  
**easyJet**

VIDEO:  
EASYJET IN PARIS

[LINK](#)

europe by  
**easyJet**

# Driving operational excellence in Paris

---

## Operations in Paris – what we've done

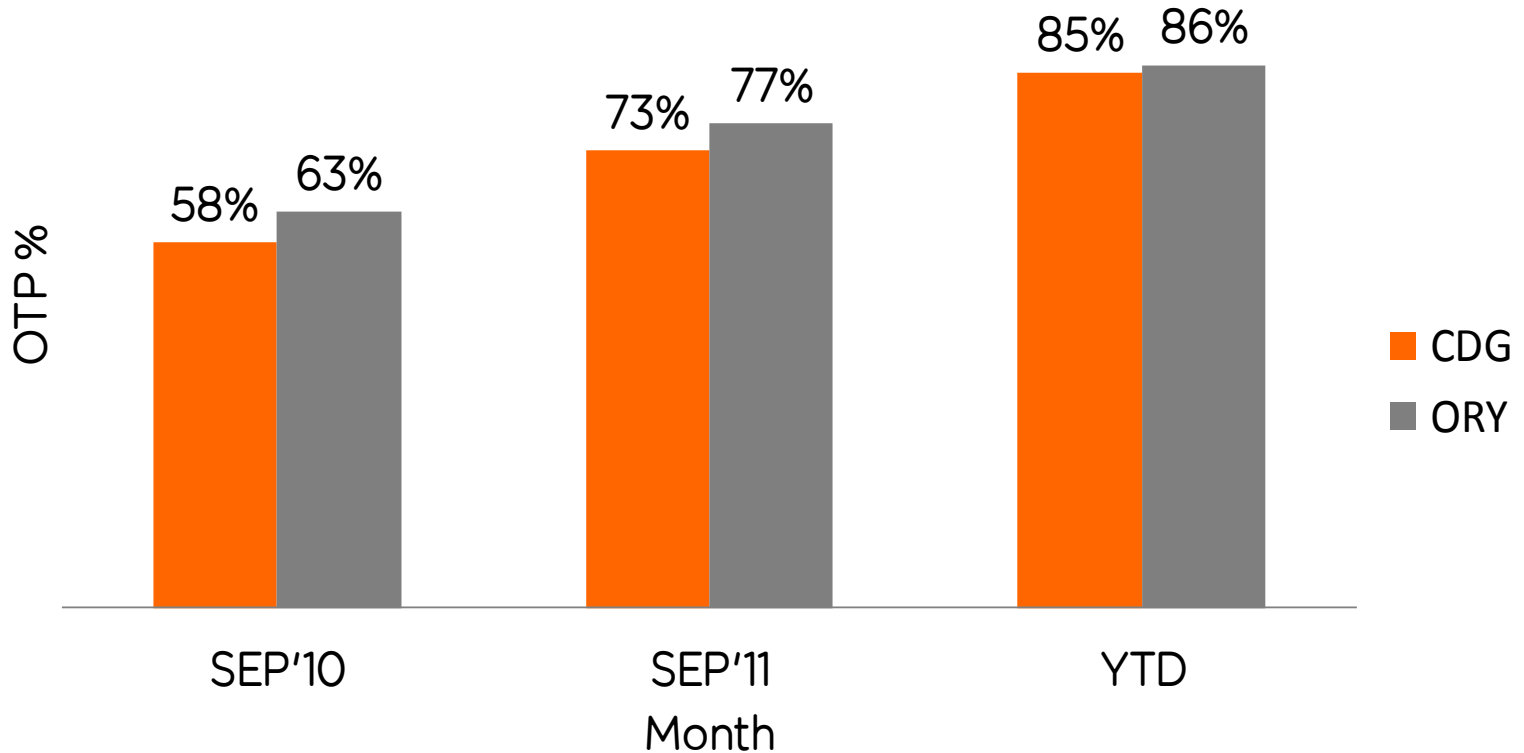

- CDG/ORY - £3 million cost savings
- Move from Terminal 3 to 2B increased passenger numbers
- 4.8 million passengers (2010/2011)
- Using walk-in walk-out and steps (reducing air-bridges)

## What we are going to do

- Full walk-in walk-out
- Move from Terminal 2B to 2D
- Create pre-boarding lounges

# Improving customer experience

OTP within 15 minutes – CDG/ORY

# Summary

---

- Good relationship with Aeroport de Paris (AdP)
- First airline for walk-in walk-out
- First airline for Fast Track Speedy Boarding
- easyJet branded and dedicated check in area
- easyJet logo on AdP signage
- Improving customer service
- Make the handler walk in customer shoes

FRANCE:  
MAKING THE MOST OF THE  
OPPORTUNITY

europe by  
**easyJet**

# Taking easyJet to the next level

---

- First ever national TV campaign broadcasted in January 2012 on main media e.g. TF1
- New growth opportunities in **Nice** and **Toulouse** as of March 2012
- **Paris** is our 2<sup>nd</sup> largest network point, but we have only 10% market share
- Business travel: sales force in place
- We win over competition:
  - Air France retrenching, taking out capacity
  - Transavia struggling in Orly
  - Vueling stops head to head routes in Toulouse

# Conclusion

---

# PRESENTERS

europa by  
**easyJet**

# Presenters

## Carolyn McCall, OBE – Chief Executive

Carolyn McCall joined easyJet on 1 July 2010 as Chief executive. Carolyn previously was Chief Executive of Guardian Media Group plc. Carolyn was non-executive director of Lloyds TSB (from 2008–2009) and was a non-executive director of Tesco Plc (2005-2008), and of New Look plc (1999-2005). She was Chair of Opportunity Now and a former President of Women in Advertising and Communications London (WACL).

Carolyn was awarded the OBE for services to women in business in the Queen's Birthday Honours List in June 2008. In April 2008 she was named Veuve Clicquot Business Woman of the Year. She graduated from Kent University with a BA in History and Politics, and from London University with a Masters in Politics.

## Chris Kennedy – Chief Financial Officer

Chris joined easyJet on 1 July 2010 in the position of Chief Financial Officer. Chris joined easyJet from EMI Music where he has had a successful career covering a range of international roles including Chief Financial Officer. Chris has considerable experience of working within a high profile international, fast changing consumer facing business, strong financial skills and a demonstrable track record of delivering operational improvement.

## Alan McIntyre – Head of Network Development & Scheduling

Alan has been with easyJet since 2008 and is currently Head of Network Development & Scheduling. Prior to this he was with British Airways for seven years in marketing, sales, strategy and European Alliances Manager, three years at Singapore Airlines as Manager Worldwide Sales and Pricing and four years at GB Airways as Commercial Director.

## Chris Essex – Head of Central & Fleet Procurement

Chris heads up Fleet and Central Procurement, having joined the airline in 2002 and has held a variety of roles in Strategy and Planning, Operations and Procurement. Prior to easyJet, he was at Air New Zealand for eight years where his last role was Vice President Fleet Strategy. Chris has also been responsible for easyJet's implementation of ETS. He was formerly the Chair of the European Low Fares Airline Association (ELFAA) Environmental Working Group and was a member of the European Commission's Aviation Working Group.

# Presenters

## Peter Duffy – Marketing Director

Peter joined easyJet in February 2011 as Marketing Director. He joined from Audi in the UK where he was Marketing Director and oversaw a period of rapid and profitable growth. Prior to that, Peter was Marketing Services Director at Barclays.

## Cath Lynn – Customer & Revenue Director

Cath successfully carried out a number of senior management roles at easyJet including Head of Ground Operations, Head of Airport Development & Procurement and Head of Network Development before being appointed Customer and Revenue Director in April 2011.

## Andy Hodges – Director of Sales, Distribution & Business

Andy has held a number of roles within easyJet during his six years in the business including Head of Commercial Finance and Planning. Previously he led many corporate transactions at British Airways as part of its corporate development team and spent the formative years of his career at Deloitte, first as an auditor and then within its Air Transport Consulting Practice.

## Warwick Brady – Chief Operations Officer

Warwick joined easyJet on 5 May 2009 as Procurement Director, and later appointed Chief Operations Officer. Before joining easyJet, Warwick was Deputy Operations Director at Ryanair from 2002 to 2005, where he held various executive roles including Deputy CEO of Buzz, following its acquisition from KLM. He also spent two years as Chief Operations Officer of Air Deccan and was CEO at Mandala Airlines.

## Ian Davies – Head of Engineering & Maintenance

Ian has been the Head of Engineering & Maintenance at easyJet for almost 4 years. Prior to this he was Director Of Engineering at bmi for seven years. He has over 35 years of experience in aviation of which 20 have been with long haul, short haul and commercial airlines.

# Presenters

---

## Thomas Haagensen – Country Director Switzerland & Germany

Thomas has been with easyJet since March 2008, based in Geneva. Prior to that he spent 12 years at Tetra Pak in various roles including production management, new business development, and marketing and sales responsibility for Lebanon and Syria.

## Francois Bacchetta – Country Director France

Francois joined easyJet in May 2005. He started his career at L'Oréal where he held various marketing positions in France before leading the group's business development in emerging countries in Asia as Marketing Director Thailand, Country Director Indonesia and then Marketing Director for Eastern Europe back in Paris.

Nothing in this presentation is intended to constitute an invitation or inducement to engage in investment activity for the purposes of the prohibition on financial promotion contained in the Financial Services and Markets Act 2000.

This presentation has been furnished to you solely for information and may not be reproduced, redistributed or passed on to any other person, nor may it be published in whole or in part, for any other purpose.

This presentation does not constitute or form part of, and should not be construed as, an offer for sale or subscription of, or solicitation of any offer to buy or subscribe for, any securities of easyJet plc (“easyJet”) in any jurisdiction nor should it or any part of it form the basis of, or be relied on in connection with, any contract or commitment whatsoever. This presentation does not constitute a recommendation regarding the securities of easyJet. Without limitation to the foregoing, these materials do not constitute an offer of securities for sale in the United States. Securities may not be offered or sold into the United States absent registration under the US Securities Act of 1933 or an exemption there from.

easyJet has not verified any of the information set out in this presentation. Without prejudice to the foregoing, neither easyJet nor its associates nor any officer, director, employee or representative of any of them accepts any liability whatsoever for any loss however arising, directly or indirectly, from any reliance on this presentation or its contents.

This presentation is not being issued, and is not for distribution in, the United States (with certain limited exceptions in accordance with the US Securities Act of 1933) or in any jurisdiction where such distribution is unlawful and is not for distribution to publications with a general circulation in the United States.

By attending or reading this presentation you agree to be bound by the foregoing limitations.
